Why Thailand

ASEAN's #2 economy

Central location in ASEAN, a stable society and an open business environment make Thailand a top destination for foreign investment.

Zero tariffs in ASEAN

Thai-made goods enter ASEAN member states duty-free, giving tenants easy access to regional markets.

BOI incentives

We handle Board of Investment (BOI) applications. Eligible companies can receive corporate income tax exemptions and other incentives.

Who We Serve

Manufacturers moving from China

EV and electronics suppliers needing 2,000 to 10,000 sqm of ready-built space without buying land.

Cross-border e-commerce

Thailand ended its low-value import exemption in 2026, so sellers are moving stock into bonded space in Thailand.

Agricultural consolidation

Durian and fruit exporters need sorting, packing and consolidation space near the port in peak season.
